

Year Round Access to Back of Property

Once the pool season has come to an end, there will now be access to the back of the property to enjoy the children's play structure, full court basketball, two tennis courts & sand volleyball (weather permitting).

During pool season members will continue to enter through the main pool desk and side pool gate to access the pool and rest of the membership property. There are two gates that will remain open during pool hours; one located on the walk-way to tennis and another to the left of the Kiddie Pool bathhouse.

Should there be a day during the pool season the pool is closed due to weather or other reasons and the weather will still permit members to play tennis, basketball, volleyball or use the play structure the new gate installed to allow "Back of the Property Access" will be open. This new gate may be found by taking the side path from the upper lot down towards to pool. Just before you would go down the steps to the pool, look to the left and you will find a section of the fence that is now a gate (with a lift up latch just like entering the pool area).

Once the pool season has come an end, this new gate will be open during the Fall through Spring weather permitting during daylight hours.

Please Note: There is no restroom access to the small pool bathhouse. Should you need restroom facilities during these times you may utilize the facilities located in the fitness center, the business office (M-F 10am-5pm) and The Cellar Bar & Grille (during business hours).

No persons may be on the pool deck when life guards are not on duty at any time.
